[redacted] Only

25 September 1956

MEMORANDUM FOR: Mr. [redacted]

SUBJECT: Visit to [redacted]

Request your approval of my trip to [redacted] on 8 October. I will travel with Dr. [redacted], TSS. The subject is Brainwashing or Coercive Persuasion.

My interest in this field dates back a year or two when I assisted our people in obtaining staff work in the brainwashing field prepared in support of the [redacted] Commission on prisoners of war. Since that time, I have been involved in the various research interests of [redacted] and CIA in this field. Additionally, have been involved in some miscellaneous matters in this field, i.e., (1) the relationship of [redacted] responsibilities in interrogation techniques to CIA work in this field, and (2) the conflict between a research proposal which would blow an operation etc.

CIA has had a research project in the BW field at [redacted] for some time. Dr. [redacted] has recommended for several months that I be briefed by the [redacted] people on their work in order that I may better understand the relationships between TSS and [redacted] on the one hand and certain [redacted] projects on the other.
